

# Ventura Outdoor Radiant Heater

Using long-wave infra-red technology, the new Ventura Radiant Heater uses ceramic elements that radiate heat with no distracting light output. Perfect where durable, focused heat is required, the Ventura warms like the sun, heating the objects in front of it rather than the air – making it the perfect “people heater”.

## FEATURES AND BENEFITS

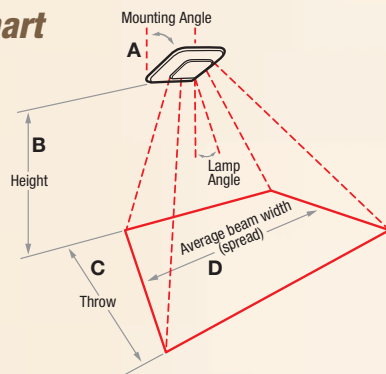

- Durable ceramic elements for long-lasting radiant heating.
- Weather-resistant design for year-round comfort.
- Silent operation.
- No distracting visible light output.
- Adjustable mounting bracket.
- Fitted guard included – no glass lens to clean.
